

**bellagio goose intro**

# goose

origins @ block

model neutral

open source / protocols / standards

ubiquitous adoption at block

some other companies (stripe,  
databricks)

43k GitHub stars

## goose origins

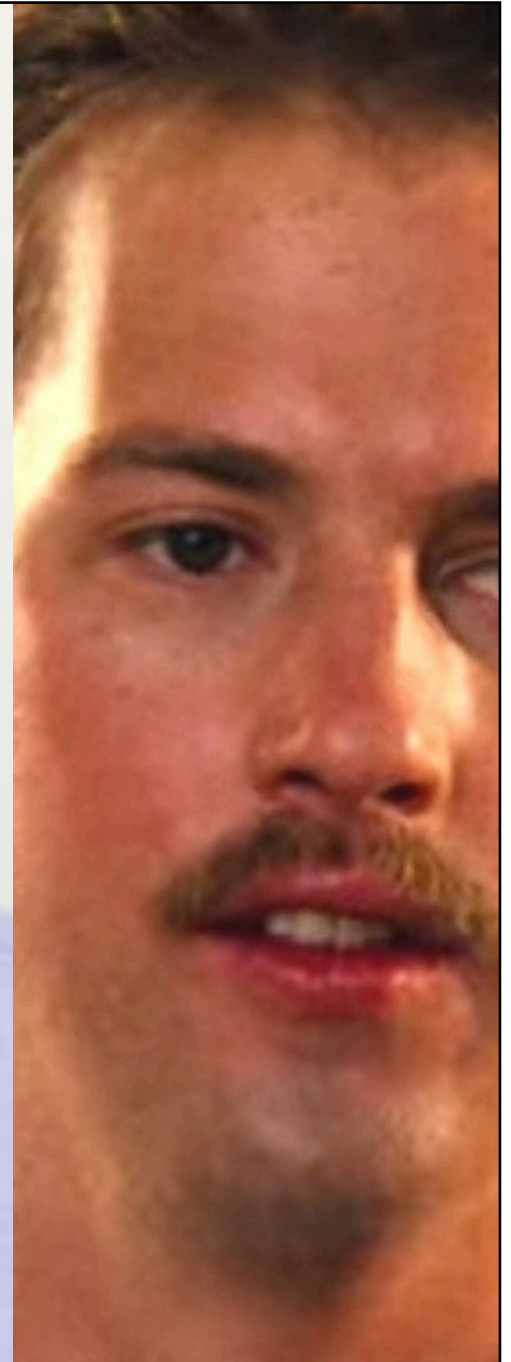

early 2024

Bradley Axen

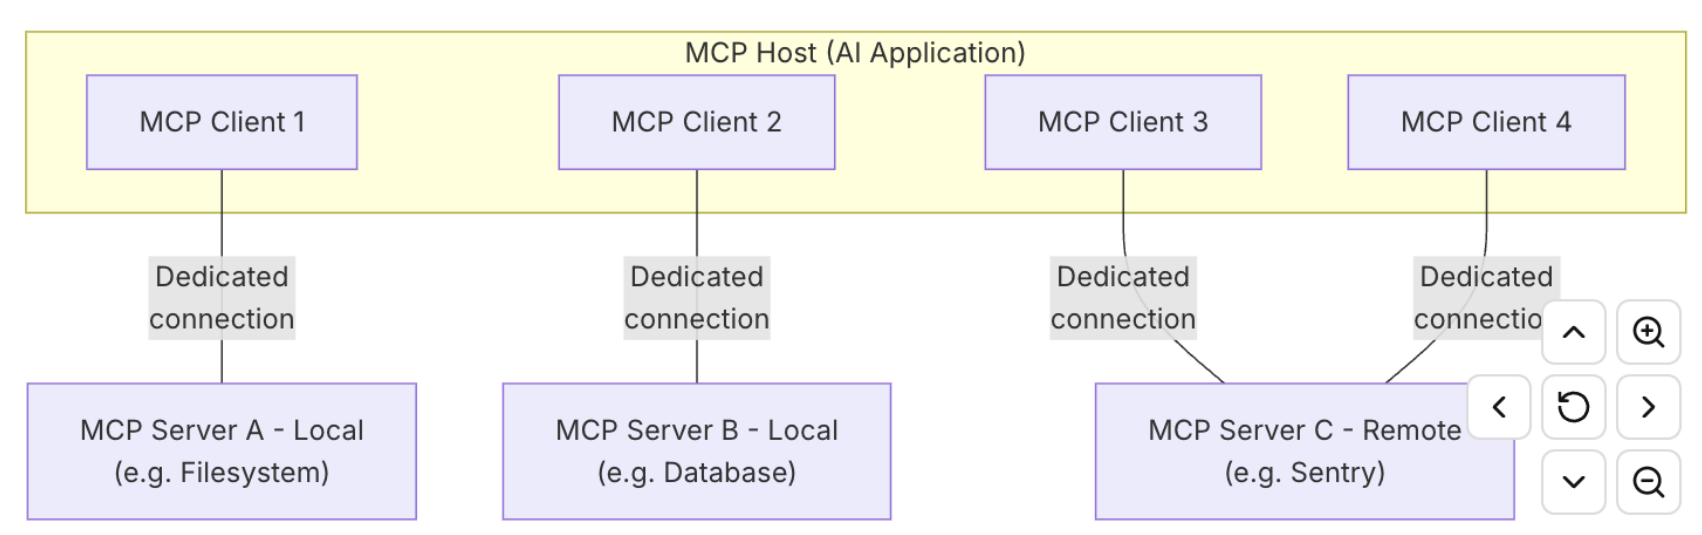

early fn calling impls

prototype -> real value @block ->  
open sourced nov 2024

MCP

# the value in an open source host

**open protocols**

# mcp - "model context protocol"

give the **model** information and tools  
to do things

demo

acp - "agent  
client protocol"

tell the **agent** what to do

demo

Agent/Client  
Protocol

# agent skills

give the **agent** additional capability and expertise

demo
